Opportunity

Proposal Overview

November 6, 2023

# city of **yes**

“We are going to turn New York into a **City of Yes** — yes in my backyard, yes on my block, yes in my neighborhood,”

"These proposals focused on economic recovery, affordable housing, and sustainability will remove red tape for small businesses, expand housing opportunities in every neighborhood, and accelerate the transition to our energy future. New Yorkers are not going to wait around while other cities and other countries sprint towards a post-pandemic world, and now we won't have to."

-Mayor Eric Adams

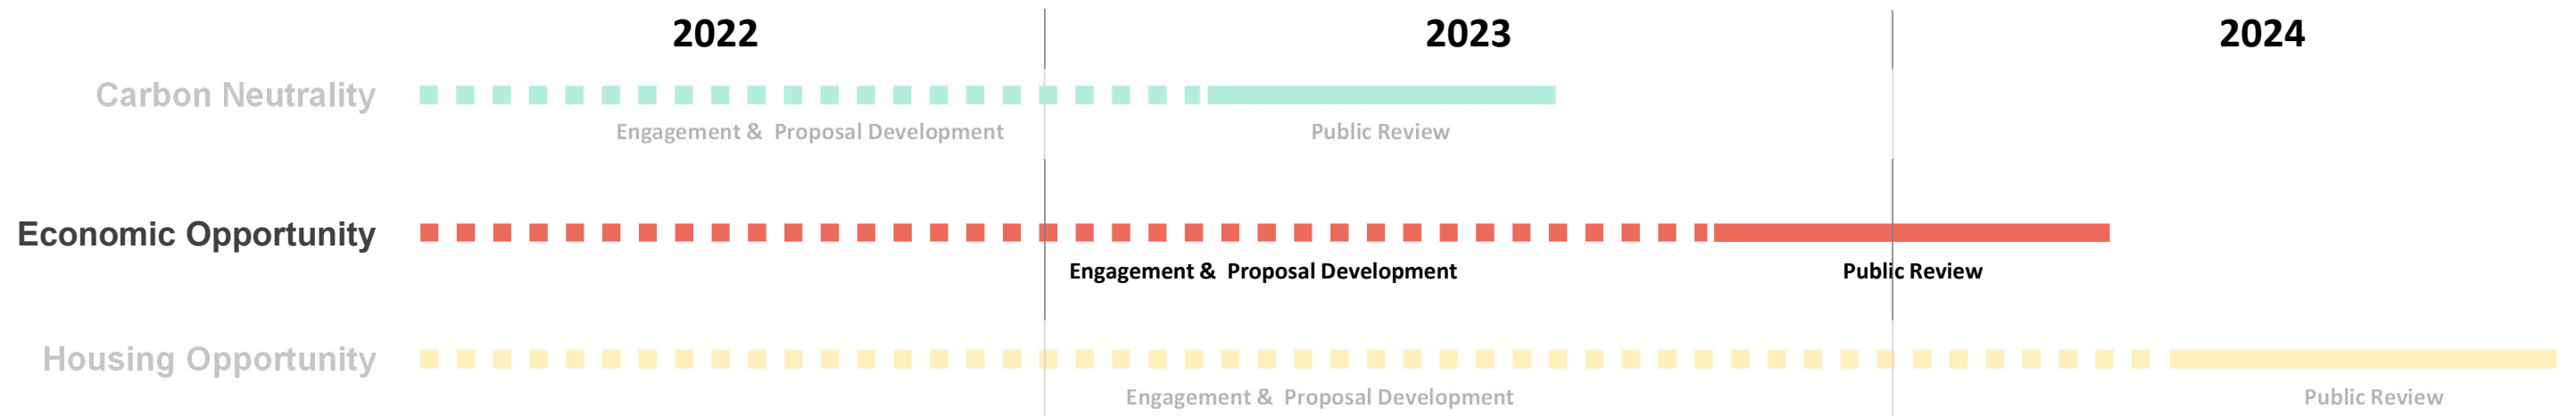

**for Carbon Neutrality**  
Expanding opportunities for decarbonization projects

**for Economic Opportunity**  
Growing jobs and small businesses with more flexible zoning

**for Housing Opportunity**  
Ensuring all neighborhoods are meeting the need for housing opportunities

# How does zoning affect businesses in NYC neighborhoods?

Where can I open my business?

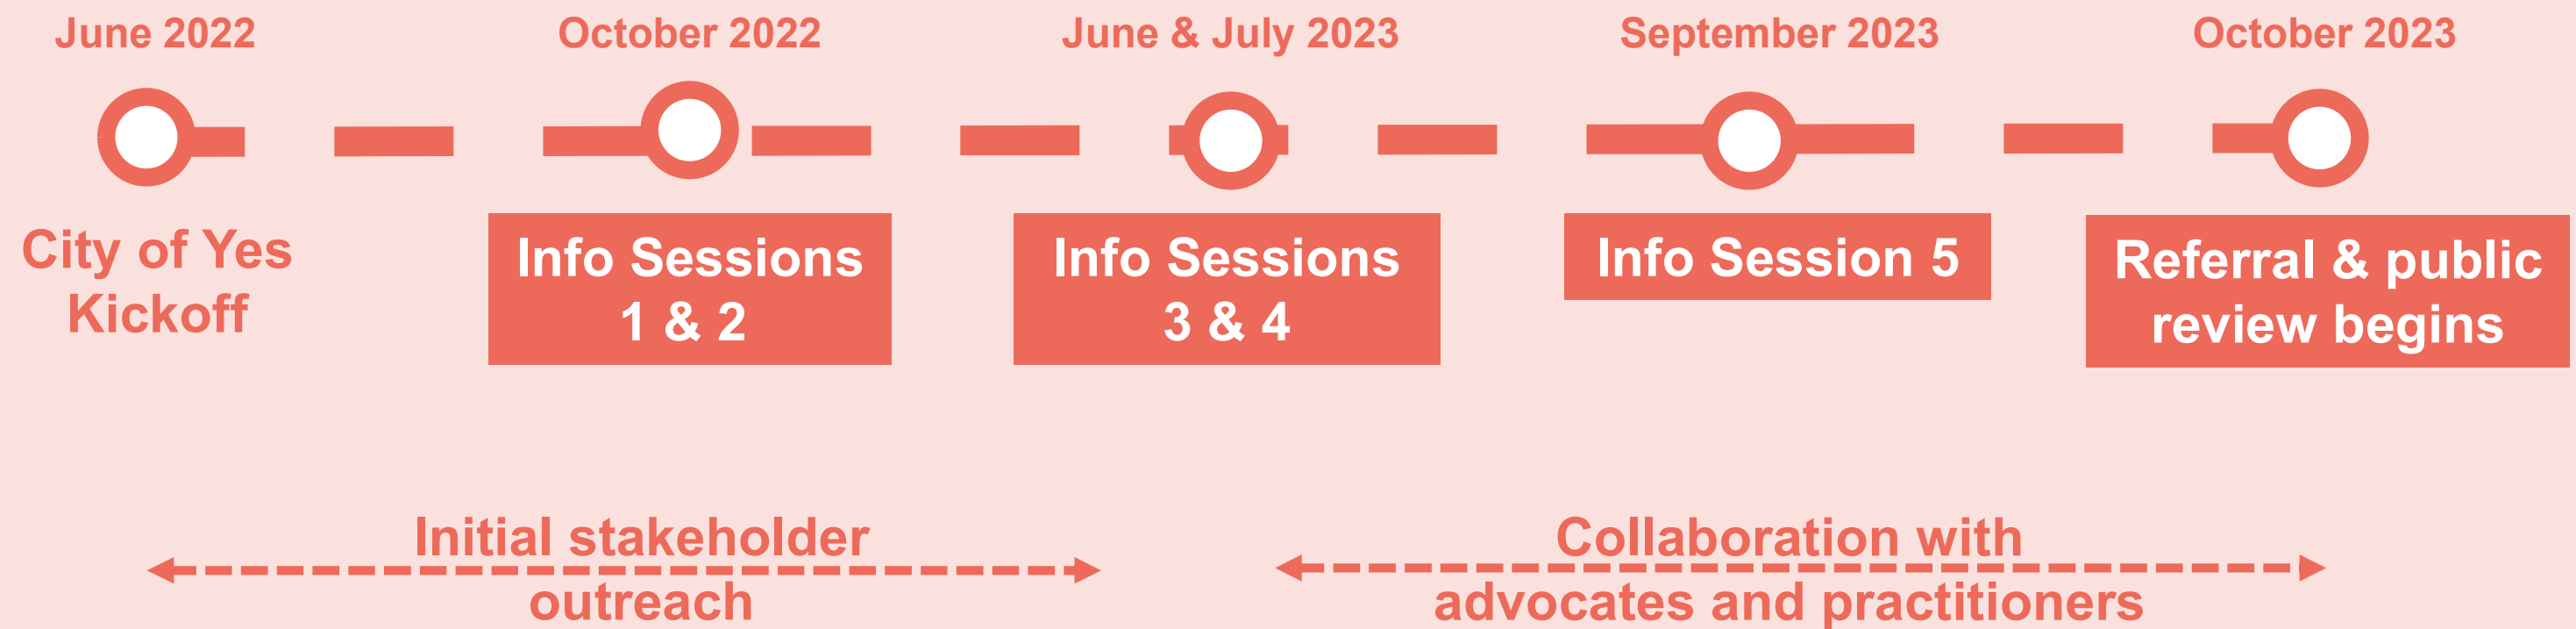

What can I do in my space?

Where can I expand?

# Engagement process to date

**to date:**

**Five** open-to-the-public pre-referral info sessions

Meetings with **100+** stakeholder organizations

# Zoning often presents a barrier to opening, operating, and expanding a business in NYC

There are way too many storefront vacancies. Can't we do something?

If I don't bother anyone, why can't I start a business in my home?

I have so many new customers. Please let me expand my bakery.

I'm confused: can I do my critical life sciences work in New York City or not?

Why does the City not allow me to have my office on the 2<sup>nd</sup> floor?

A comedy night would be a great addition to my restaurant.

 Notes: Macro industry sectors represent aggregations of U.S. Census Bureau 2-digit NAICS codes, which generally reflect industries' land use patterns. Jobs reflect the number of employees reported by a business whose physical address is within a given community district. For businesses in some industries, such as Home Health Care (Institutional) or Construction (Industrial), a share of the work may be performed by employees outside the physical address of the business location and cannot be tracked.
