

School Construction Authority

SCA Site Selection Hearing

Proposed New School Site:

John Collins Place, Bronx, NY 10463

The School Construction Authority's (SCA) mission is to design and construct safe, attractive and environmentally sound public schools for children throughout the many communities of New York City. We are dedicated to building and modernizing schools in a responsible, cost-effective manner while achieving the highest standards of excellence in safety, quality and integrity.

SCA Public Process for Site Selection

SCA is required to present to a Community Board and Community Education Council before moving forward with new school sites

Process includes environmental review and engagement with City agencies, like DOT, DEP, and FDNY before going to the City Council for final approval

At this juncture, we have not yet begun design, and today's presentation will focus on the site itself (rather than specifics about the school facility)

Seat Need & Proposed Site

School District 10 has a school seat need of 1,978 seats and 696 of those seats are in this sub-district as of our December 2021 capital plan amendment

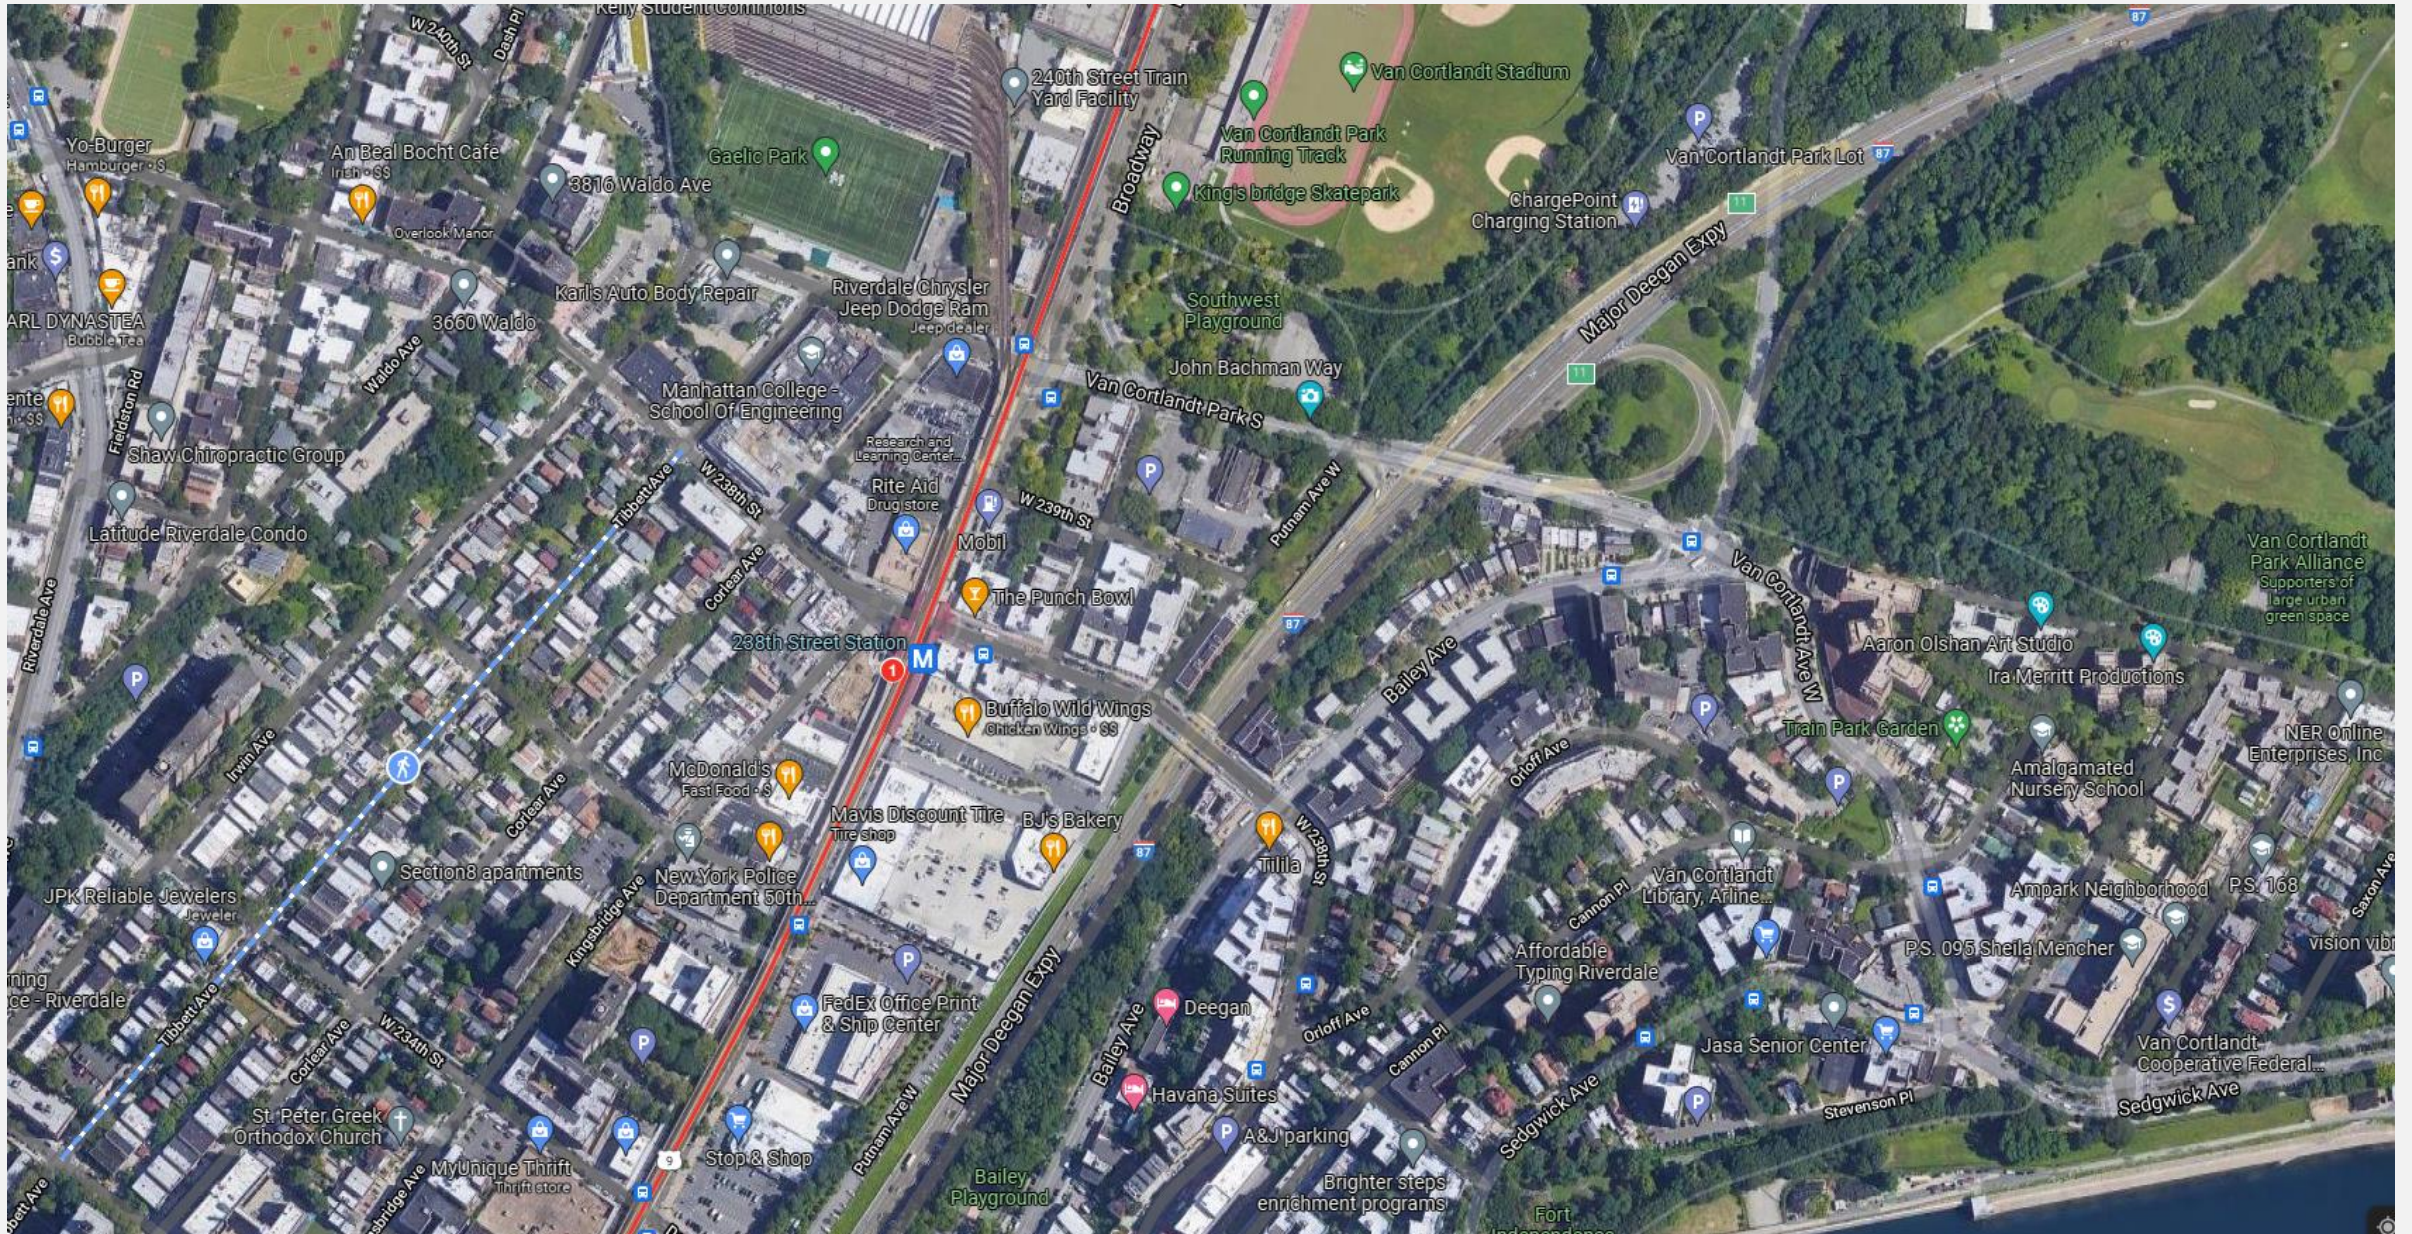

The School Construction Authority is proposing to build a new, approximately 696-seat school building in the Bronx in School District 10

The site is approximately 21,810 sq ft. and is expected to be located on John Collins Place between Van Cortlandt Park South and W 239th St
