	Michael Heller	H. H. S. S. Committee
	Demetrius McCord	H. H. S.S. Committee

June minutes were voted on and approved unanimously, by Lenora Croft, Steve Froot, Omar Murray, and Karen Pesce.

Lenora Croft passed out information pertaining to Circle of Care and Introduced Mr. McLamb M.H.S from Presbyterian Senior Services to address the committee about his program.

Mr. Michael McLamb explained that Circle of Care has been established since January. It's a program designed to help the care giver who is giving care to people with various health issues.

Circle of Care is funded by N. Y. S. Department of Health which is a five year program and fully funded. It offers free services to anyone caring for loved ones over the age of 65 and has some type of illness or is suffering from Alzheimer and Dementia. The Circle of Care also has a program for grandparents over the age of 55 who is caring for grand kids.

Mr. McLamb explained about establishing social services within the community to help us better understand the services Circle of Care provides. To provide education and training, to put in place a care plan for the individual who suffers from Alzheimer and Dementia.

Circle of care has a wide range of care, for persons with all health care issues, which mainly helps the caregiver. It seems to cover every aspect of health care for the care giver. Circle of Care will service the Upper Manhattan and the Bronx.

Meeting was adjourned at 8:25pm.
