Committee discussed the importance of continuing to have meetings at the Youth Centers in the community board.

There is still interest in having a joint meeting with the Aging Committee.

Rita Lowe suggested the committee support lighting for the fields in Seton Park. The committee agreed to investigate the need and community support for the lighting. As the issue has clear overlap with the Parks Committee a joint meeting with that committee was also discussed.

The next meeting of the Youth Committee is scheduled for October 26, 2011.
